Summary

Computer Science undergraduate specializing in DevOps, cloud technologies, containerization, and CI/CD. Hands-on experience with Git, Docker, GitHub Actions, Jenkins, Kubernetes, and Linux. Built containerized applications and automated deployment pipelines, with a focus on cloud infrastructure and reliable software delivery.

Academic Projects

Automated CI/CD Pipeline

Designed and implemented an end-to-end CI workflow using GitHub Actions, automating test execution and Docker image builds on every code push to eliminate manual testing steps.

Technologies: GitHub Actions, Docker, Python, Git

Jenkins CI/CD Pipeline

Engineered a Jenkins pipeline that automates Docker image builds and deployment, streamlining the release process from code commit to a running container.

Technologies: Jenkins, Groovy, Docker, Docker Hub

Kubernetes Application Deployment

Deployed and managed a containerized application on Kubernetes, configuring horizontal scaling and rollback strategies to ensure high availability and safe releases.

Technologies: Kubernetes, Docker, kubectl, Minikube

Jenkins + Kubernetes Deployment Pipeline

Built an integrated Jenkins-to-Kubernetes pipeline that automates containerized application deployment and release management end-to-end, reducing manual intervention.

Technologies: Jenkins, Docker, Kubernetes, Helm

Cloud DevOps Infrastructure

Provisioned and deployed a containerized application on cloud infrastructure with a fully automated CI/CD workflow, enabling consistent and repeatable deployments.

Technologies: AWS, Docker, Linux, GitHub Actions

DevOps Monitoring & Observability

Set up metrics collection and real-time dashboards to monitor containerized workloads, improving visibility into system health and performance.

Technologies: Prometheus, Grafana, Kubernetes

Education

Bachelor of Science in Computer Science (BSCS)

Expected Graduation: 2027

Superior University

- Currently in the 7th Semester
- Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Operating Systems, Computer Networks, and Software Engineering

Technical Skills

- **DevOps & CI/CD:** Git, GitHub, GitHub Actions, Jenkins, CI/CD, Docker, Docker Compose, Docker Hub
- **Containers & Orchestration:** Kubernetes, kubectl, Minikube, Helm
- **Cloud & Infrastructure:** AWS, Cloud Computing, Infrastructure as Code, Terraform
- **Linux & Configuration:** Linux, Bash, Nginx, YAML, Groovy
- **Monitoring & Logging:** Prometheus, Grafana, ELK Stack
- **Programming & Database:** Python, C++, SQL, MySQL
- **Tools:** VS Code, Git Bash, Docker Desktop
- **Languages:** English, Urdu
